

BLOOD-POISON CURED BY FOERG'S REMEDY---READ!!

THE HISTORY OF A MOST REMARKABLE CURE.

Complete and Truthful Story of the Case of J. M. Jones of Princeton, Ky.

Portrait of J. M. JONES, Princeton, Ky.

Twelve years ago Mr. John M. Jones of Caldwell County, Ky., began to suffer from terrible sores on his arms as the result of blood poisoning, and in a short time on his left arm seven running sores developed between the hand and the elbow. These were very painful and very offensive, incapacitating him entirely for work. The pain was so severe that he could not sleep without elevating his arm on a pillow. After undergoing excruciating torture for years, and treating with the best physicians, he went to Nashville, Tenn., and underwent a course of treatment with a specialist. This was all unavailing and finally the matter was submitted to a consultation of doctors and they decided that the only way to save his life was by amputating the arm.

The following statement, signed by the various officials of Caldwell County, Ky., and officers of Masonic Lodge, substantiates this story.

Princeton, Ky., May 11th, 1903.

To Whom It May Concern:

It is to certify that we, the undersigned, have known Mr. John M. Jones, of Caldwell County, Kentucky, for many years, and have known him to be a very great sufferer from running sores on his arm. We have just seen Mr. Jones' arm this day and he made the following statement of it in our presence. He says that he had it running sores on his left arm between the hand and elbow; that they were of 12 years' duration, very painful and very offensive; that he could not sleep for pain, and for many years when he did sleep he would have to elevate his arm in a pillow and that on one occasion he came to Princeton for the purpose of submitting to an operation by having his arm amputated, that being the only hope as he had out by the best physicians. After arriving in Princeton his heart failed him and he refused to have the operation performed, saying he would rather die than submit to it. About that time Mr. Hugh Mayes, proprietor of Foerg's Remedy, proposed to him that he would furnish him this great blood remedy absolutely free, saying he was confident it would cure him. Mr. Jones accepted the offer and about 8 months ago began taking it and that to-day he only has two sores running at all and they are almost stopped. Mr. Jones attributes his being alive today to this great remedy. He exhibited his arm to us and we could plainly see that he has been greatly benefited, his complexion being clear and his looks so much better in every way. We certify that Mr. Jones is a reputable citizen, though poor, and it was a charitable act in Mr. Mayes giving him this remedy. He is very loud in praise of it and we personally know that he has been greatly benefited by it.

To Whom It May Concern:

We, the undersigned, state that we have been acquainted with J. M. Jones, of Princeton, Caldwell County, Ky., all his life, and have been watching

the condition of his arm and hand for twelve (12) years or more and can say that when he commenced to take Foerg's Remedy he was in a pitiable condition. Now we find him greatly improved, at work, and as healthy looking as any man in our community.

When I first commenced to take Foerg's Remedy I had it running sores on left arm and hand and my hand and arm were swollen and pained me all the time. Could not sleep unless arm was elevated. After the first bottle I felt great relief. After taking the 3d or 4th bottle was almost relieved from pain. Sores began to heal. After the 7th or 8th bottle all sores had healed but two. And then commenced to use my hand, something I had not done for many years, besides getting all I had with doctors, seemingly getting no relief. I belong to Farmersville Lodge of Masons, No. 41, and am now Steward and Tyler of same. Now my arm is so much improved that I am plowing on the farm and doing regular work.
